

Shell–Deck coatings Application

Acotec nv

**Facts:**

- Description of the project:

Humidur® is applied as anti-corrosion coating and non-skid coating on the Shearwater Platform, Gannet Alpha Platform, Brent Charlie Platform and Brent Bravo Platform.

Before application, areas are mechanically prepared, degreased and they are getting a fresh water wash.

The Humidur application overall resulted in substantial cost savings and increased efficiency thanks to its user-friendly one-layer system and the reducing of man-hours.

- Date:

2016-2017
