

Acotec NV is a worldwide supplier of anti-corrosion solutions, from the inspection of steel infrastructure and the corrosion mechanisms, followed by cleaning and repairing damages, up to the final anti-corrosion protection. We offer solutions for various sectors: offshore oil & gas market, petrochemical industry, marine industry, the energy market, and many others ...

As a developer and manufacturer of the Humidur coating system, Acotec has built a reputation within these industries in Belgium and far beyond.

For the expansion of our teams on our sites, we are currently looking for:

MOTIVATED WORKERS (M/F)

JOB DESCRIPTION

Acotec NV is specialised in painting and coating of steel that is subject to corrosion caused by natural elements. You will be responsible for the treatment of this steel (painting/coating) in order to protect it against rust. You will be working mainly on project sites: in ports, along canals and waterways all over Belgium.

You will be trained for this job, which we describe as gritblaster/pistol painter: you will prepare the steel by cleaning it, setting it dry, gritblasting and treating it with coating.

We are looking for people who are used to working outside, used to doing hard work, handymen, who are flexible in hours. You will always work in a team of at least three, the team may vary. You have a drivers license B. Transfer to the sites mostly happens as a team, with a company van.

PROFILE

- Experience as a pistol painter is an advantage
- Experience as a gritblaster is an asset
- Experience as a mechanic/welder/diver is a plus
- You are flexible as far as working hours are concerned, long working days are not an issue
- You are open to a foreign adventure (not a must)
- You have experience with heavy physical work
- You are used to working outdoors
- You have no fear of heights
- You do not have claustrophobia
- You can swim
- You have a drivers license B
- Knowledge of Dutch, English or French is necessary

PERSONAL COMPETENCES

- Work well together in a close team
- Sense for accuracy
- Comply with rules and agreements
- Reliable colleague
- Result-oriented
- Ability to learn

OFFER

- Attractive salary in accordance with official scales (construction sector)
- Sites all over Belgium
- The job is challenging and varied
- A job with responsibility
- Career development opportunities
- Foreign adventure is a possibility
- Permanent contract for an indefinite period
