

**Orkney Islands Council - Hatston Pier
Customized cofferdam**

Acotec nv

Facts:

- Short description of project:

At the Hatston Pier in Kirkwall, Orkney Islands, UK, wave curtains were placed on submerged tubular piles. Therefore, a safe and dry area had to be created to access these tubular piles. Acotec developed a special cofferdam in which the wave curtains could be attached to the piles in all safety.

- Start of the project:

August 2013

- End of the project:

January 2014

- Exact location:

Hatston Pier Kirkwall
Orkney Islands, UK

- Name client:

Orkney Islands Council

- Contractor:

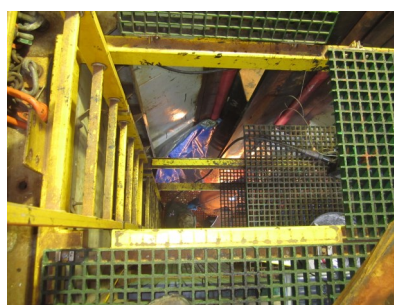

Mc Laughlin & Harvey
